

“All truth is relative.”

1. The sentence above claims that absolutely all truth is relative. Therefore if it was true, its truth would be relative. In other words, it is not necessarily true. And since it cannot pass its own test it becomes a logical fallacy and collapses under its own weight. This is why **it is false**.

2. Have you ever met a human who constantly desires to be lied to? Or have you ever asked someone to draw the shape of the sun, and he drew a square?! Or have you ever tried to convince the bank employee that the number of zeroes you see in your account is different than the one she sees?!

3. Like so, relativism is like a house built on sand, it is only a matter of time before the storm comes and the house collapses. It is time we expelled this corrupt ideology from our minds, families and schools.

4. Do not be deceived. Absolute and eternal Truth exists! Find it, and with it you will find peace and you will find the meaning of your life. Jesus Christ says: “I am the way, and the truth, and the life” (John 14:6).
