

SATAN LOVES PORN

SAY NO TO PORNOGRAPHY!

Personal DNS Filter is a free (open source) app which blocks pornography on an Android phone (word origin: porneia πορνεία, meaning "prostitution"), providing you with the means to setup a barrier between your family and a multitude of evils (adultery, rape, child abuse, drugs, addictions, homosexuality, destroying families, consuming youth drive, distancing husband and wife, marital infidelity, stealing innocence of children, taking advantage of the poor.. etc). Don't fall to this evil. God can always provide a better way.

Time is holy, don't waste it. Don't give Satan the chance to test or tempt you. Therefore avoid the temptation, stay far from it and make it difficult to reach.

How it works: It blocks known pornographic domains. Popular websites containing pornographic material aren't spared, these include: Twitter, Reddit and Wikipedia images. Safe search is enforced on Google while all other search engines are blocked.
